**“EXINI CONTINUOUS THE CLINICAL DOCUMENTATION OF THEIR PRODUCTS AROUND THE WORLD”**

Dr. Horikoshi's, at Gunma Cancer Centre, Japan, presented the first successful evaluation of Bone CAD at the 50th Annual Scientific Meeting of the Japanese Society of Nuclear Medicine. The conclusion was that using CAD with a Japanese database increased accuracy and made it possible to use CAD in the clinic.”

As always, within the medical business, your products need to have their own documentation on Japanese patients. This presentation give us now this official status for EXINI to expand into the Japanese market, says CEO Magnus Aurell.
